**RE:** Resources provided by Colorado Crisis Services

Greetings Team,

As front-liners, we often face situations in which the individuals we serve don't know how or where to begin to seek for help when the issues they are facing become a crisis. I recently met with a representative from Colorado Crisis Services, a statewide network that aims to provide Coloradans with greater access to behavioral healthcare services before, during or after a crisis, and wanted to share with you information about the resources provided by this network:

- **The Colorado Crisis Services Line, 1-844-493-TALK (8255):** This 24/7 toll-free hotline is available 365 days a year for anyone affected by a mental health, substance use or emotional crisis. All calls are connected to a mental health professional that will provide immediate support and connections to further resources.
- **Colorado Crisis Walk-In Locations:** Walk-in crisis service locations are open 24/7 and offer confidential, in-person crisis support, information and referrals to anyone who needs it. Walk-in locations can be found on the Colorado Crisis Services website at [www.ColoradoCrisisServices.org](http://www.ColoradoCrisisServices.org).
- **Crisis Text Service:** Anyone can text the word TALK to 38255 anytime, from anywhere in Colorado about any type of crisis. This feature connects to a mental health clinician and is available 24/7. Crisis text services are only available in English.

Please share information on these resources when you are serving an individual who is in crisis or in a situation that may lead to a crisis. Collateral materials are available that highlight the resources mentioned above for your community; please contact **X** to learn about the collateral material options and to place an order.

To learn more, visit [www.ColoradoCrisisServices.org](http://www.ColoradoCrisisServices.org).

Let me know if you have any questions.

Thanks,
